Transform 06: DICOM and Kofax honor successful sales and integration partners

Industry leader announced new technologies to record audience numbers at 10th annual European Partner conference in Prague

Basingstoke,– DICOM Group plc ("DICOM Group"), a global leader in Information Capture and Business Communications technologies, last week honoured DICOM-Partners for exceptional integration and sales results at its annual partner conference for the EMEA region.

With Ascent 7.5 and Xtrata Pro Transform 2006 saw the introduction of new and improved versions and upgrades of award-winning Kofax product lines. The event also presented the newly developed Document Scan Server.

This year, Transform was attended by more people again: Over 480 partners and resellers from 32 countries including 298 Kofax Certified Solution Providers (CSPs), together with 22 journalists from seven countries met in Prague. Leading manufacturers and DICOM partners from the ECM and Information Capture industry as Canon, Fujitsu, Boewe Bell & Howell, HP, Kodak, A2iA and Hyarchis presented their latest products and technologies.

"Transform at Prague was a tremendous success for us. We got valuable feedback from your resellers and system integrators and celebrated the excellent results of our CSPs," said Rob Klatell, CEO of Kofax' parent company DICOM Group. "We are especially pleased with the large number of attendees we welcomed this year. That proves both market relevance and outstanding performance of our products."

The 'Solution of the Year Award' in the 'Most Innovative' category was awarded to systems integrator Informática El Corte Inglés, the IT-services subsidiary of Spain's largest retail group. The company implemented an Ascent based capture system at Spanish Danone S.A. processing 20 million delivery receipts arriving at 70 locations annually. The system allows automating the full business process from order to delivery.

Océ, one of the worldwide leading providers of printing and DMS solutions won the 'Solution of the Year Award' in the 'Highest ROI' category for integrating an invoice capture solution at BNP Paribas Factor, a subsidiary of the international banking group of the same name. By installing Ascent for Invoices the volume of invoices processed daily was doubled to 3,000 and at the same time both entry error ratio and process cost were reduced significantly.

UK based PlumTree Group, a leading provider of Document Lifecycle solutions for the health care industry, was selected as winner in the 'Best Repeatable Solution' category. In 17 completed and around 40 ongoing projects for the National Health Service, PlumTree implemented the Ascent Capture platform to

process pathology forms. To achieve this, the company developed a standardized form optimally meeting the requirements for filling in and capturing.

Other UK Award winners were Steria Ltd, the leading end to end IT services provider with over 1,400 UK based employees who were presented with a Special Achievement Award.

The Ascent Sales New Partner Award was won by Scansation Ltd which was founded in July 2005 and has already implemented capture systems for many commercial organizations and government departments.

Digital Vision Technologies won the Top Ascent Sales Partner Award recognizing its position as the most successful Kofax integrator in Europe with an expertise in delivering bespoke data capture and workflow management solutions for leading SME and blue chip organizations.

About DICOM Group plc

DICOM Group plc ("DICOM Group", London Stock Exchange: DCM) is a global leader of Information Capture and Business Communications solutions. Its leading edge capture and communication technologies and solutions enable Business Process Automation by managing the transformation and exchange of business-critical information (residing in various formats such as paper, fax, electronic documents, e-mail, SMS) among people, applications and devices. The company's centres for product development and marketing include Kofax, the world's leading provider of Information Capture solutions, and Topcall, a worldwide provider of Business Communication technology. Through a global network of more than 1,200 authorised partners and its own sales and service organisations in Europe, the USA, Asia and Australia, DICOM Group help blue-chip enterprises in more than 60 countries to reduce cost, increase efficiency and minimise risk in their critical business processes.
